Integrated Speakers

Wide Viewing Angle

Images, Video & Music

PRODUCT HIGHLIGHTS

INCREASED POWER

As well as being built on the Android Operating System the Android SL range all feature a more powerful CPU and graphics processor enabling you to handle more demanding graphics in turn delivering more immersive and attention grabbing content!

3G CONNECTIVITY

Want your screen installed in a location with no WiFi or LAN connectivity? No problem! The Android SL Series provides the ability to upgrade the screen to 3G connectivity for a small surcharge.

USB KEYBOARD COMPATIBLE

Our new Android powered SL displays now feature the ability to plug in a USB keyboard to make menu navigation and entering Wi-Fi passwords much quicker and easier.

HTML COMPATIBILITY

Unlike the SL Series our new Android SL has the capability to display HTML pages so either via our CMS software or your own solution you can now display live feeds using the power of HTML

TOPAZ CONTENT MANAGEMENT SYSTEM (CMS)

- Manage your content through our **cloud based** content management system from **anywhere in the world**.
- User control enables you to **manage your users** and control who in your organisation has access to update specific areas
- Clients are issued with a username and password for our **secure web portal**, where they can **upload their content** at the click of a button which is stored on our **secure server**.
- Utilize **zoned templates** to present your videos, images, scrolling text messages, web pages and **live** RSS feeds.
- Create multiple playlists to determine exactly when the **relevant content** is displayed.
- Update your screens **individually** or in **groups, manually** or **automatically** depending on your requirements.

Create custom layouts - Choose from one of the pre-designed templates or create your own layouts using zones such as video, images, text, web pages, weather and more!

This allows you to deliver targeted content and display your messages exactly how you want to!

Populate your layout – Upload your images and videos and simply drag and drop into your created zones to create your playlist!

Text zones can also be populated through linking to external RSS feeds or custom messaging – ensuring your messages are targeted as well as informative!

Update your screens from anywhere - Content can be uploaded and managed from anywhere in the world via our secure web portal. Simply log in, upload your images and videos to our secure server and send them directly to your screens.
