

Stretch Display

28" | 37" |

The Ultimate Digital POS Header for the Retail Industry

High profile branded products should have a POS system that makes them stand out from the crowd in the busy world of retail and give them a USP. Available in 28 and 37 inches, designed specifically for the retail trade, the TOPAZ Stretch Screen replicates a traditional retail header board but allows digital content to make your product really stand out in this very busy environment.

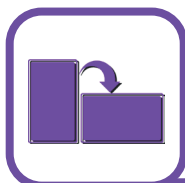

You can now include dynamic content to capture maximum attention. Incorporate video, product adverts, moving images, flashing price points or any imaginative content to make your consumer take notice of your brand and your promotion.

The solution comes with a powerful media player to store the content which is Wi-Fi enabled so it allows you to manage all the content across the estate from one central location, making sure you are showing the right content at the right time in the right location.

Designed to operate 24/7, perfect for retail environments, hospitality and Casinos.

Key Features

Portrait or
Landscape

Clear HD
Resolution

Android OS

Multiple Inputs

1000 CD/m² High Brightness

Designed to be in brightly lit areas, the Stretch display will make your content really stand out with four times the brightness of an ordinary domestic displays.

Slimline Bezels

Designed to create maximum impact, the Stretch displays have been designed to have slimline bezels to make the most of the 28 or 37 inch displays.

IPS Panel

Commercial grade IPS Panels guarantees impeccable image quality and colour depth with the ultra wide viewing angle in any direction.

Media Zones

Split the content on the display into different media zones, have video, image and even webpages all at once with different media zones. Creating maximum engagement with your customers.
